

# Abnormal Findings Explanation Form for Foot and Mouth Disease (FMD)

Any abnormal findings found in the flock should be reported on the daily observation form and then further explained here. Thorough observation and documentation as well as prompt reporting of abnormal findings is critical in slowing the spread of a FMD outbreak.

<b>Farm Name:</b>			<b>PIN:</b>		
<b>Date (MM/DD)</b>	<b>Time (AM/PM)</b>	<b>Group Descrip./ Animal ID</b>	<b>Abnormal Findings and Comments<sup>1</sup></b>	<b>Initials</b>	<b>Abnormal Findings Reported<sup>2</sup></b>
					<input type="checkbox"/> <b>Y</b> <input type="checkbox"/> <b>N</b>
					<input type="checkbox"/> <b>Y</b> <input type="checkbox"/> <b>N</b>
					<input type="checkbox"/> <b>Y</b> <input type="checkbox"/> <b>N</b>
					<input type="checkbox"/> <b>Y</b> <input type="checkbox"/> <b>N</b>
					<input type="checkbox"/> <b>Y</b> <input type="checkbox"/> <b>N</b>
					<input type="checkbox"/> <b>Y</b> <input type="checkbox"/> <b>N</b>
					<input type="checkbox"/> <b>Y</b> <input type="checkbox"/> <b>N</b>
					<input type="checkbox"/> <b>Y</b> <input type="checkbox"/> <b>N</b>

<sup>1</sup>Abnormal findings may include changes in production values such as feed intake, or signs that could be the result of FMD infection such as fever (Fe), lameness (L), lamb death (LD), and/or blisters on mouth and/or feet (B).

<sup>2</sup>Promptly report suspicious signs or unexplained changes in production values to the person listed in the operation's Communication Plan.
