

PROTECTING THE SHEEP FLOCK

VISITORS WITHOUT DIRECT SHEEP CONTACT

Make sure actions on this operation do not introduce diseases on vehicle tires, equipment, and footwear.

ARRIVING

Make sure you have permission to enter this operation. Follow all posted signs.

Drive and park in designated areas.

Arrive with clean equipment to avoid disease spread between operations.

ON THE OPERATION

Wear footwear that can be cleaned if it becomes dirty. If necessary, wear disposable shoe covers.

Be prepared to sign a visitor's log, if available.

Avoid contact with sheep, feed, manure, and body fluids. If sheep contact is needed, follow required biosecurity steps to avoid introducing or spreading disease.
